Career Objective

Motivated and detail-oriented B.Tech student specializing in Artificial Intelligence and Machine Learning, with a solid foundation in programming, data analysis, and machine learning fundamentals. Familiar with Python, Java, and database technologies, and eager to apply technical knowledge to data-driven software projects while continuously learning and enhancing skills.

Education

Bachelor Of Technology, Artificial Intelligence And Machine Learning — 2024-2028
Aditya University — CGPA: 9.2 / 10 (up to 3rd semester)

Intermediate A.P(10+2) — 2022-2024
Sri Surya Junior College — Percentage: 98%

SSC A.P(10) — 2021-2022
Govt High School — Percentage: 92%

Projects

Event Analysis:
Analyzed and visualized event-related data using Python libraries such as Pandas, NumPy, and Matplotlib. Applied basic machine learning techniques to identify patterns and trends in the dataset, and presented insights through graphical visualizations to support data interpretation.

Bus Ticket Booking System:
Developed a bus reservation system using Java that allows users to view routes, select seats, and book tickets. Implemented object-oriented programming concepts and integrated a database for storing booking and passenger details, ensuring efficient data management.

Online Quiz Platform:
Built a full-stack quiz application using HTML, CSS, JavaScript, and backend technologies with features like user authentication, quiz management, and automatic score calculation. Designed an interactive interface to improve user experience and enable real-time quiz participation.

Social Saver:
Developed a WhatsApp bot using Twilio API and Fast API that automatically saves and organizes Instagram links into a searchable React dashboard. Integrated Google Gemini AI to intelligently categorize content into topics like Coding and Fitness while generating concise summaries, enabling users to instantly rediscover saved posts through real-time search and category filters.

Skills Programming

Programming
C , C++, Java, Python (Basic)

Web Technologies
HTML, CSS, JavaScript

Database
MYSQL

Soft Skills
Communication, Teamwork, Problem Solving

Interests

- Programming and Web Development
- Learning new technologies
- Participating in technical events and workshops
- Problem solving and logical thinking

ACHIEVEMENTS

- Earned multiple technical certifications in AI, Web Technologies, and Programming
- Completed hands-on academic projects successfully
- Strengthened problem-solving skills through Hacker Rank practice
- Presented technical seminars and presentations as part of academic coursework

CERTIFICATIONS

- Earned participation certificates from technical competitions conducted on Unstop.
- NPTEL certifications in Python Programming and engineering-oriented courses
- Certifications from Infosys Springboard, Coursera, and Udemy in HTML, CSS, C, Python, and Java
- Oracle Certified (Database / Java)
- Hacker Rank Certification on SQL Basics

LANGUAGES

- Telugu
- English
